

# META NITRO BENZALDEHYDE

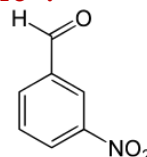

**Synonyms** : 3-Formylnitrobenzene; 3-Nitrobenzaldehyde; 5-Nitrobenzaldehyde;

**CAS No.** : 99-61-6

**Mol. Formula** :  $C_7H_5NO_3$

**Mol. Weight** : 151.12 g/mol

**Mol. Structure** :

Sr. No	Test	Specifications
1.	Appearance	Light Yellow to off white Powder
2	Identifications (by GC)	The principal peak in the Chromatogram obtained with the test solution is similar in retention time to the principal peak in the chromatogram obtained with standard solution as directed in the test purity.
3.	Melting Point	56° – 59° C
4.	Moisture (By KF)	NMT 0.5 %
5.	Purity (by GC)	NLT 99.00 %
